Yessin Rezgui

yessin Rezgui | yessin Rezgui | yassine.rezgui@etudiant-fst.utm.tn | +393384177942

Profile

Full-Stack Developer specialized in **Angular** and **Spring Boot**, experienced in building modern, scalable, and high-performance web applications. Passionate about robust architectures and user-friendly interfaces, with strong focus on code quality and collaboration in dynamic teams. Always motivated to innovate and learn new technologies.

Experience

Bachelor Internship February 14, 2024 - June 12, 2024

Company: SFectoria

Development and launch of an interactive e-learning platform, integrating multimedia courses and a real-time chatroom to facilitate student communication and collaborative learning.

Summer Internship June 6, 2023 - August 14, 2023

Company: Master Class

Development of an employee management system—a robust and user-friendly platform allowing companies to efficiently manage human resources. Angular was used for the front-end and Spring Boot for the back-end, providing a modern interface and scalable architecture.

Education

- **University of Urbino Carlo Bo** October 2025 – Present
  Master's Degree in *Computer Science and Digital Innovation*
- **Faculty of Sciences of Tunis, FST** September 15, 2021 – June 12, 2024
  Bachelor's Degree in Computer Science

Technical Projects

- **Hotel Management System** (**Angular + Spring Boot**) – Online platform to manage room bookings, availability, payments, and admin dashboard for managers. Modern UI with scalable REST APIs.
- **Medical Appointment Scheduling System** (**Angular + Spring Boot**) – Application for clinics to manage patient appointments, doctor schedules, and notifications. Secure role-based login for doctors, patients, and administrators.
- **Food Delivery Application** (**Angular + Spring Boot**) – Platform to browse restaurants, place orders, track deliveries, and manage user profiles. Admin dashboard for restaurant owners to manage menus and orders.
- **Full-Stack E-commerce Store** (**Angular + Spring Boot**) – Complete online store with shopping cart, order management, admin dashboard, and role-based authentication. Responsive design and scalable backend.
- **Employee Management System** (**Angular + Spring Boot**) – Platform for managing human resources, full CRUD, reporting, and real-time notifications. Intuitive interface with advanced Angular components.

Certifications

- **Java Programming Certification** June 2024
  Udemy
  Advanced Java programming including OOP concepts, data structures, and algorithms.
- **Angular Framework Certification** May 2025
  Udemy – Ali Bouali
  Full Angular course covering component architecture, routing, reactive forms, and REST API integration.
- **Spring Framework for Java Developers: Practical Guide** Oct 2025
  Udemy – Taught by Andrii Piatakha
  Hands-on Spring Framework training including Spring Core, Spring MVC, Spring Data JPA, dependency injection, and building RESTful services.

Skills

Languages	Java, Python, JavaScript, TypeScript
Frameworks	Angular, Spring Boot
Databases	MongoDB, MySQL, PostgreSQL
Tools	Git, Docker, Github
Methodologies	Scrum, Agile

Languages

Arabic: Native
French: Intermediate
English: Intermediate
Italian: Basic
